

X Forged Irons

Product Name: X Forged Irons

Product One-liner: Forged Performance

Product Info:

The new X Forged Irons are engineered with a tremendous combination of performance, control, turf interaction, and feel in a triple net forging. It's a design that continues to be popular with Tour players around the world. This single piece, cavity back iron features Tour configurations for the soles, CG progression for precision shot-making and accuracy, with just the right amount of forgiveness, and a classic finish.

Features & Benefits

Exceptional Feel and Control

Extremely precise triple net forging for exceptional feel and high performance. The Tour configured soles are designed for excellent turf interaction from a variety of lies.

Precision Grooves and CG Progression

The 20V grooves are built in to promote a high level of control and excellent spin out of any playing conditions. They also reduce fliers from the rough, and the CG locations are optimized for even more control.

Classic Shaping

Clean and classic, with a smooth, appealing look at address, inspired by some of our most popular forged irons.
