Product Intro: The new XR Speed Fairway Woods take everything we know about fairway wood aerodynamics and face technology and combines it in our best performing – longest and most forgiving – XR Fairway line ever.

How Will Golfers Benefit?

MORE DISTANCE – From a re-engineered Next-Gen Hyper Speed Face Cup which turns impact energy into an increase in ball speed across the whole face. A refined Speed Step promotes faster swing speeds, with no additional effort.

EASY AND FORGIVING – New shallow face design, coupled to Callaway's legendary Hawkeye sole configuration, makes the new XR Speed Fairways big on forgiveness and easy-to-use for all levels of golfer.

Features and Benefits Summary

Maximum distance from our Next-Gen Hyper Speed Face Cup

Refined forged Face Cup designed to optimise ball speeds across the entire face, promoting maximum distance.

Refined Speed Step

Refined aerodynamic efficiency with improved airflow over and around the head thanks to the Speed Step for faster club head speeds.

Easy-to-launch shallow face design

Super-easy to launch with modern Hawkeye sole assisting sole-turf interaction to help every player get the ball up and away.

Ultra-premium shaft as standard

One of the most premium aftermarket shafts available, the Project X HZRDUS is now available in the new XR Speed Fairway Woods.
