

# TACTICAL

**MD4!**

## A **TACTICAL** PACKAGE TO DIAL IN YOUR WEDGE PERFORMANCE

Mack Daddy 4 Tactical is visually striking and delivers a distinct and aggressive look that starts with a new raw PVD Finish. The PVD finish stands out on its own, and it accentuates the Black PVD face and black medallions. The black True Temper Tour Issue 115 shafts with tactical labels and Tactical Lamkin UTX grips with green end caps complete the premium design.

**SHAFT:** Dynamic Gold Tour Issue 115 Black/Green

**GRIP:** LAMKIN UTX Black/Green

**Tactical:** Callaway's Groove-in-Groove technology is designed to increase surface roughness. Over normal use these micro-grooves will wear but surface roughness is maintained. The Tactical finish is unplated and will rust over time. This will not affect the performance of the wedge.
