

ARTIFICIAL INTELLIGENCE. REAL BALL SPEED.

New Flash Face Technology And Carpenter Steel Face Cup For Fast Ball Speed

We used Artificial Intelligence and Machine Learning to create a high-tech fairway wood face design, made of forged 455 Carpenter steel, that promotes increased ball speed for longer distance.

Jailbreak Technology for Fast Ball Speed

Internal Jailbreak bars stiffen and stabilize the crown and sole, placing more impact load on the face to promote faster ball speed.

Adjustable Sole Weighting to Control Launch, Spin & Trajectory

Switch weight positions (16g and 2g) between front and back to adjust launch, spin and trajectory.

New OptiFit Hosel for Loft and Lie Adjustability

New, lighter hosel design saves weight while offering a wide range of loft and lie adjustability to dial in easier launch and differing flights. And the saved weight allows us to combine Jailbreak and adjustability for the first time in a fairway wood.

EPIC FLASH SUB ZERO FAIRWAYS

MODEL	3+W	3W	5W
LOFT	13.5°	15°	18°
LOFT RANGE	12.5° - 15.5°	14° - 17°	17° - 20°
LIE ANGLE	Adjustable (56°)	Adjustable (56°)	Adjustable (56°)
LENGTH	43"	43"	42.5"
CLUBHEAD VOLUME	169cc	169cc	156cc
SWINGWEIGHT	D3	D3	D3
LEFT HAND	Yes	Yes	No
