

# OUR LONGEST BALL WITH SOFT FEEL

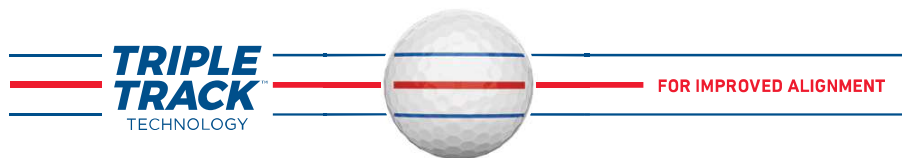

## E·R·C SOFT

Innovative new cover material delivers performance between traditional ionomer and urethane. It's engineered to promote long distance, and increased spin with incredibly soft feel.

Large, Graphene-infused Dual SoftFast Core delivers faster ball speed, high launch and low spin on full shots for longer distance and increased greenside control.

### Construction

3-Piece  
Dual Core

### Core Material

Polybutadiene

### Dual Core Diameter

1.595"

### Cover Material

Hybrid

### Cover Thickness

0.044"

### Aerodynamics Pattern

HEX

### Number of Geometries

332

### Surface Area Coverage

100%
