PERFORMANCE DRIVEN DESIGN

Our mission is to make premium putters borne of the intersection of look, sound, feel and technology. Each model in the Odyssey Toulon Collection is a union of premium materials, intelligent design, expert craftsmanship, beautiful shaping, and advanced performance technology. We're proud to be the fastest-growing milled putter in golf, and the fastest-growing milled putter on Tour, and we're about to take performance driven design to new heights.

FEATURES & BENEFITS

DEEP DIAMOND MILL ACROSS THE FACE

Deep cross-hatch grooves are engineered across the entire face to control sound and feel by channeling vibration. The small groove inside each diamond pattern is designed to improve the quality of the roll.

NEW OPTIONS TO ENHANCE YOUR PERFORMANCE

Each new model is available in our groundbreaking new Stroke Lab Design, with a Stroke Lab shaft for incredible tempo and consistency, a 20 gram steel soleplate, and pistol or oversized grips.

NEW CHARCOAL SMOKE FINISH

Odyssey Toulon is recognized for its beautiful craftsmanship and appealing look, and we've elevated our collection with an impressive new Charcoal Smoke Finish.
