## **Product intro:**

Our mission is quite simple. We are obsessed with making the most beautiful and best performing milled putters in the world. Each model in the Odyssey Toulon Design Collection is a union of premium materials, intelligent design, expert craftsmanship, beautiful shaping, and advanced performance technology. We're proud to be such a fast-growing milled putter with golfers and on Tour, and we're about to take performance driven design to new heights.

## **Features and benefits**

### **Deep diamond mill across the face**

Deep cross-hatch grooves are engineered across the entire face to control sound and feel by channelling vibration. The small groove inside each diamond pattern is designed to improve the quality of the roll.

### **New charcoal smoke finish**

Odyssey Toulon is recognized for its beautiful craftsmanship and appealing look, and we've elevated our collection with an impressive new Charcoal Smoke Finish.

### **New options to enhance your performance**

Each new model is available in our groundbreaking new StrokeLab Design, with a StrokeLab shaft for incredible tempo and consistency, a 20 gram steel soleplate, and pistol or oversized grips. Our all new Palm Beach and Las Vegas compact mallets are already very popular among the world's best Touring Professionals.

### **New Odyssey Toulon Design Branding**

Our new 2019 models prominently feature Odyssey Toulon design branding to fully establish our position as part of the #1 Putter Brand in Golf, and a strong leader in performance and innovation for milled designs.

*Short Description: Odyssey Toulon Design Putters are milled putters crafted with premium materials, intelligent design, expert craftsmanship, beautiful shaping, and advanced performance technology.*
