

# ODYSSEY ELEVEN PUTTERS

## Our Most Exciting Shape

Re-writing the rules of what can be expected from a putter, the new Eleven shape combines the #1 insert on Tour with our Stroke Lab shaft technology and a unique head shape that delivers the outstanding MOI you would expect from a mallet with a forward cg that delivers all the benefits of a blade.

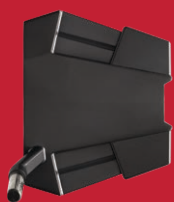

To help golfers aim better, we have three outstanding options: a Tour Lined version, a Triple Track alignment system offering, and a classic, unlined model. There's an Eleven for everyone.

## Red Stroke Lab Shaft

As seen on TV - especially on Sunday afternoon! Our latest generation shaft was introduced last season, and now features even better performance than the original! By shortening the steel section, we reduced the weight by seven grams. We also made it stiffer and more stable for even more consistency in your stroke, and your performance. Stroke Lab works, that's why it's winning major championships and dominating at the world's biggest events.

## White Hot Insert

The most popular putter insert of all time is back with the original formulation, feel, sound, and performance.
