#1 PUTTER IN GOLF

## STROKE LAB BLACK

### STROKE LAB WEIGHTING

Innovative multi-material shaft saves 40 grams of weight, which is redistributed to the head and grip end of the putter. This completely rebalances the putter for improved tempo and consistency in the stroke, and this major-winning technology continues to dominate on Tours around the world.

### NEW MICROHINGE STAR INSERT

Provides a firmer feel and enhanced sound at impact compared while maintaining the same roll benefits of our popular White Hot Microhinge Insert. It's already the choice of some of the best player's in the world.

### RICH BLACK FINISH

Combination of elegant black PVD and coating give these putters a clean rich look, and complement the original Stroke Lab models with the silver and black finish.

### BIRD OF PREY AND TEN MODELS

#### MULTI-MATERIAL SUPER HIGH MOI DESIGNS

Both models create exceptionally high MOI from a multi-material construction, making them extremely stable and forgiving on off-center impacts.

#### HI-DEF ALIGNMENT

Both putters feature our Hi-Def Alignment that make it easy for golfers to aim better at address, a critical component to better and more consistent putting.
