PERFORMANCE DRIVEN DESIGN

FEATURES & BENEFITS

DEEP DIAMOND MILL

Deep cross-hatch grooves across the entire face control sound and feel by channeling vibration. The small groove inside each diamond pattern is designed to improve roll.

ADJUSTABLE SOLE PLATE WEIGHTING SYSTEM

Each Toulon Design putter comes with a 20 gram weight, and there are 7 and 40 gram options available for players who want a lighter or heavier head feel.

STROKE LAB WEIGHTING

Innovative multi-material shaft saves 40 grams of weight, which is redistributed to the head and grip end of the putter. This completely rebalances the putter for improved tempo and consistency in the stroke, and this major-winning technology continues to dominate on Tours around the world.

CHARCOAL SMOKE FINISH

The beautiful finish complements and highlights the craftsmanship of these milled putters, making them truly striking.
