Product Intro:

A new era of speed is coming, and it's designed to lead a fundamental shift in the fairway wood category. With the Epic Speed Fairway Woods, fast is going to get faster, long is going to get even longer, and straight is going to get a lot straighter. We've set a new bar for ball speed technologies in the category.

Features & Benefits

High velocity ball speeds from NEW Jailbreak A.I. Velocity Blades

Epic ball speeds start with our new Jailbreak A.I. Velocity Blades. Callaway engineers used A.I. to design a completely new Jailbreak system which spreads and angles the Jailbreak blades. Along with stiffening the body, the new design allows the forged face cup to flex more. The result is exceptional ball speeds all across the face.

Fast ball speed from A.I. Designed Flash Face SS21

Every model and every face in our fairway woods are uniquely designed using advanced A.I. It's a proven ball speed design that puts an even greater emphasis on center and off-center ball speeds.

More speed + forgiveness from a Forged C300 Maraging Steel Face Cup

The high strength C300 Maraging Steel provides outstanding strength and flexibility while the Face Cup provides speed and spin consistency across the face.

Hot, penetrating ball flights from a forward CG

The forward Center of Gravity (CG) is combined with a new leading-edge to promote a strong ball flight, outstanding spin robustness and consistent shot shape dispersion.
