Price: £ 22.99

Product Intro:

Supersoft has been one of the most popular balls for years, with golfers who like it so much that they won't play anything else. Now with the new Supersoft MAX, we're bringing out a unique offering that's engineered for max distance from max forgiveness.

The oversized design promotes distance, straight ball flight, and super soft characteristics in an easy-to-hit construction that conforms to the rules of golf. To create even more distance, the Tri-Blend Ionomer Cover is built for maximum ball speed with high launch and low spin. Supersoft Max is well suited for developing golfers who want to hit the ball farther and play with more confidence.

Features & Benefits

Maximum forgiveness, maximum distance, easy to hit

The oversized design is engineered for increased consistency and high launch while conforming to the rules of golf. All of this forgiveness is designed to promote more consistent contact for increased distance.

Fast ball speed, high launch & low spin

Our Tri-Blend Ionomer Cover is specifically built to increase ball speed. This cover material also creates an impressive combination of high launch and low spin in your longer clubs.

Ultra Soft Feel

The high speed, low compression core enhances energy transfer and provides amazing super soft feel.
